

POS Retail System

POS Hospitality System

SX 6000 Series

SX6600-05 *Retail Version*

The SX6600 Series have been designed specifically for the modern retailer with special attention to the independent and convenience store operator.

The SX6600 Series are 4th generation Uniwell scanning products, representing over a decade of experience and development of retail systems.

With extensive Price Look Up (PLU) options and flexible programming, the SX6600 Series can be configured to suit the specific needs of your business. With memory options for up to 61,693 items you can be sure that any future expansion can be readily accommodated.

SX6600-03 *Hospitality Version*

The SX6600 terminal is an entry level POS system designed for the hospitality, leisure and catering market. The flexibility of the system makes the SX6600 ideal for use in bars, restaurants, quick service, cafes and canteens.

The SX6600 comes network ready, it can be connected with up to 31 other terminals providing consolidated reporting and kitchen printing across the entire system. In addition the SX6600 is also PC ready and can be connected to back office PC for programming and management information.

SX 6000 Series
